INAUGURATING THE SOCIETY OF GEOINFORMATICS ENGINEERS

December 16th, 2021

The inauguration of the SGE function commenced promptly at 2:30 PM at the Colin Mackenzie Auditorium, IRS. Dr. K. Srinivasa Raju, Professor and President of SGE, kicked off the event with a warm welcome address. Following this, Mr. Dileep Udayanan Babu, Male General Secretary of SGE, presented the Annual Report for 2021-22 and outlined the agenda for the upcoming academic year. Dr. Thirumalaivasan, Director of IRS, then delivered the inaugural address, setting a positive tone for the proceedings. Dr. K.P. Jaya, Professor and Head of the Civil Department, further addressed the audience, adding valuable insights to the event. The Chief Guest, Dr. Magesh Chandramouli, Professor of Computer Graphics Technology at Purdue University, USA, captivated both students and faculty with his inspiring speech. His address not only motivated the audience but also included an interactive session highlighting the vast opportunities within the field of Geoinformatics.

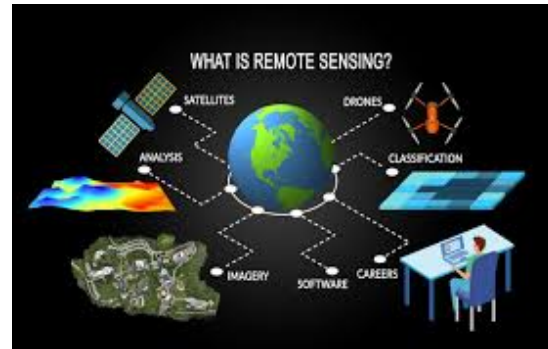

The event concluded with a heartfelt vote of thanks by the female General Secretary, Ms. S. Saranya, who expressed gratitude to all who contributed to the success of the inauguration.

SOCIETY MEMBERSHIPS

- Dr. C. Udhayakumar, Associate Professor, IRS has become a life member in Indian Society of Geomatics (ISG).
- Mrs. M. Navamuniyammal, Professor, IRS has become a life member in Indian Society of Remote Sensing (ISRS)
- Dr. R. Vidhya, Professor, IRS has renewed her membership in IEEE Madras Chapter.

NOTABLE PROJECTS

- 'Implementation of preparation of local level ICZMP in 1:5000 scale - The World Bank aided Coastal Disaster Risk Reduction Projects
- Establishment of GIS Cell for Decision Support System in Disaster Management and Populating NDEM with Disaster specific Database and Integration of Storm Surge Model for Early Warning
- Monitoring of NABARD sponsored watersheds using Geospatial technology

Webinar: Current Trends in Remote Sensing and GIS

November 27th, 2021

The Society of Geoinformatics Engineers successfully hosted a highly engaging webinar on “Current Trends in Remote Sensing and GIS” on 27th November 2021. The session, presented by Dr. S. Vidhya Lakshmi, M.S., PhD (UK), Commonwealth Scholar, DFID, and British Council Awardee, Associate Professor at Saveetha School of Engineering, offered valuable insights into the evolving landscape of remote sensing and GIS.

Participants had the opportunity to explore the latest trends and advancements in the field, with Dr. Lakshmi providing in-depth knowledge on the subject.
