DEPARTMENT OF CHEMICAL ENGINEERING

GREEN INITIATIVE CLUB

Green Initiative Club, Department of Chemical Engineering is a highly active club that plays an important role in creating environmental awareness amongst the future generation. Dr.K.V.Radha, Professor and Head of the Department, oversees the Green Activity Club. The Club is led by Dr.A.Brinda Lakshmi, Professor, Department of Chemical Engineering is comprised of students who are committed to making the campus less wasteful, increasing awareness for eco-friendly causes, and promoting environmentally friendly habits such as reducing, reusing, and recycling. The major goals of the group are to encourage students to keep their surroundings green and tidy by planting trees. Organize tree planting programmes, as well as awareness programmes such as quizzes, essays on various environmental causes. Impart students to assist individuals in identifying and resolving environmental issues.

As a preliminary step, Dr. Ravikrishna R, Professor and Head, Department of Chemical Engineering, IITM, Dr R Jayavel, Dean, AC Tech campus, Dr K V Radha, Professor and Head, Department of Chemical Engineering, AC Tech campus and the faculty members of the department possessed an inherent interest in sapling different plants like neem, mango, bamboo, etc. The enthusiastic students of the department actively organized in planting many saplings around the campus and also encouraged to come-up with their ideas for making the campus green.
