CIRCULAR

British Council has launched global Women in STEM scholarship programme in partnership with UK universities. This is the fourth year that the scholarship has been launched **for women from selected countries of South Asia**. British Council looking for women with a STEM background who can demonstrate their need for financial support and who wish to inspire future generations of women to pursue careers in STEM.

Selected candidate will receive a scholarship to study for a Master's degree in a Science, Technology, Engineering or Mathematics programme at a leading UK university.

For any queries, please contact at WomenInStem.Scholarships@britishcouncil.org

More details on eligibility criteria available on the next page.

Scholarships for Women in STEM

Eligibility criteria

The following guidelines have been approved by the British Council and all participating universities in the 2024-5 Scholarships for Women in STEM.

Scholars must:

- Be or identify as a woman.
- Be a passport holder and permanent resident of one of the eligible countries listed in the table below.
- Meet the entry requirement of the UK Higher Education Institution for the course they apply for, including academic equivalents and English language.
- The candidate must have completed all components of an undergraduate degree at the time of submitting the application for the scholarship; British Council can consider final awards pending on a case-by-case basis.
- Demonstrate case for financial support / socio-economic need.*

** To assess socio-economic need at the point of scholar's application, the British Council will provide guidelines and a standard evaluation framework that institutions will be expected to incorporate into their application process.*

- Not be in receipt of financial support or funding towards their study programme in the UK from any other source and not be able to privately fund their UK studies.
- Preference should be given to candidates who have not had any international exposure prior to this scheme.
- Have not previously studied at degree level or higher in the UK or lived recently in the UK. Distance learning at a UK university or study at a UK branch campus in another country will also be considered as studying in the UK.
- Indicate their preference for course and institution in the case of applying to multiple institutions.
- Meet the English language requirement of the UK Higher Education Institution.
- Be motivated and academically able to follow and benefit from a UK postgraduate taught course.

- Be active in the field with work experience or with a proven interest in the proposed subject area.
- Be willing to demonstrate future contribution to capacity-building and socio-economic advancement of their home country through the benefits achieved after graduating from UK higher education.
- Agree to maintain contact with the British Council and act as an ambassador for the UK and engage with activities as part of a Scholarships for Women in STEM alumnus during and after their studies in the UK.
- Demonstrate a plan and a passion to engage other women and girls in STEM from their home country.
- Agree to their personal data being shared with the British Council for purposes of assessment and promotional activity, as a condition of applying for the scholarship.
- Agree to return to their country of citizenship for a minimum of two years after their scholarship award has ended.

A candidate will not be eligible for a British Council Scholarships for Women in STEM if they:

- Hold dual British citizenship.
- Are an employee, a former employee, or relative (*) of an employee of Her Majesty’s Government (including but not limited to: British Embassies/High Commissions; Department for Business and Trade (DBT), the Department for Energy Security and Net Zero (DESNZ) and the Department for Science, Innovation and Technology (DSIT); Department for International Trade; the Ministry of Defence; and the Home Office)
- Are an employee, a former employee, or relative (*) of an employee of the British Council Scholarships for Women in STEM – eligible countries.
(): Relatives are defined as parents or stepparents, siblings or stepsiblings, children or stepchildren, spouse, civil partner, or unmarried partner (where the couple have been in a relationship akin to marriage or civil partnership for at least two years).*
- Are currently in receipt of financial support or funding towards your study programme in the UK from any other source.
- Have previously studied in the UK with funding from a UK Government-funded scholarship or a UK institutional scholarship/financial bursary, as well as those who privately funded their UK studies.
